WHITE PAPER
of **buzzBT**

This document does not constitute a securities offering or a collective investment scheme.

Contributors are advised to read the document thoroughly and conduct their own due diligence. Before making an investment decision, read the terms and conditions. buzzBT is led by a world-class team with a background in trading, investment banking, block chain, AI, data, and coin.

INTRODUCTION

ABOUT buzzBT

buzzBT is not a collective investment scheme. Rather it is a platform for investors and traders who are looking to utilize the most advanced trading tools and technology, as well as the combined wisdom of the community in order to achieve maximum returns in cryptocurrency markets.

buzzBT has experienced rapid changes in conceptual upgrades since the moment we disclosed the first idea of a peer-to-peer digital asset platform. Technological breakthroughs, as well as ambitious scalability opportunities, have catapulted buzzBT to a whole new level. By introducing the most comprehensive infrastructure for investors and traders, including:

MISSIONS

The buzzBT platform's mission is to build a decentralized and secure platform for the exchange of value and information. We believe that by harnessing the power of blockchain technology, we can build a platform that is fast, efficient, and open to all, with the potential to revolutionize the way people interact and exchange value.

To achieve this mission, we are committed to the following principles

Decentralization: We believe that decentralization is an important aspect of any blockchain platform, and we are committed to maintaining and increasing the buzzBT platform's decentralization.

Security: We prioritize the safeguards of our launch pad and our users' assets. We will use cutting edge security technologies and practices to protect our users' assets and transactions.

Accessibility: We believe that the benefits of blockchain technology should be available to everyone, regardless of technical expertise. We are committed to developing a platform that is simple to use and understand, and that anyone can use.

Innovation: We are committed to continuously improving and expanding the capabilities of the buzzBT platform, as well as remaining at the forefront of blockchain innovation. This includes creating new features and applications, integrating emerging technologies, and forming partnerships and strategic alliances with other organisations and projects.

VISION

The vision of the buzzBT project is to create a decentralized, open, and secure platform for the exchange of value and information. By leveraging the power of blockchain technology, we aim to create a platform that is fast, efficient, and accessible to all.

Our goal is to create a platform that is easy to use and understand, and that can be used by anyone, regardless of their technical expertise. We believe that our platform has the potential to revolutionize the way that people interact, transact, and exchange value, and to become a leading player in the global crypto currency market.

To achieve this vision, we are committed to continuously improving and expanding the capabilities of the buzzBT platform. This includes the development of new features and applications, the integration of emerging technologies, and the establishment of partnerships and strategic alliances with other organizations and projects. Overall, the vision of the buzzBT project is to create a decentralized platform that is fast, efficient, and accessible to all, and that has the potential to revolutionize the way that people interact and exchange value.

OUR EXCELLENCE

CRYPTO COGNIZANCE

BuzzBT's goal is to provide a one-stop shop for cryptocurrency traders and investors. Because the infrastructure of BuzzBT is being built by professionals in the investment industry, the importance of timely market data has not been overlooked.

BUZZBT DIGITAL ASSET PLATFORM

The essence and heart of the buzzBT infrastructure. It creates a profitable business. The model that challenges the traditional investment management industry. Investors can easily browse hundreds of trading models provided by professional cryptocurrency traders and follow those that meet their criteria. By doing so, all members can get a clear picture of current events and the past performance of each trading model. The platform does not allocate funds to anyone, but rather automatically implements the person's own decision made by the platform.

FOR INVESTORS/ CAPITALISTS

The BuzzBT platform enables ordinary investors to search for and compare the performance of hundreds of proven cryptocurrency traders, as well as automatically replicate their trading activity. When an investor chooses the most appropriate strategy, the system will automatically synchronize all trading activity from the chosen investing Model into their segregated account at BuzzBT.

CONVENIENCE OF ASSET TRADING AS WELL AS FUND SAFETY.

Each investor can diversify their investments by simultaneously following up to 20 different Models (traders). Diversification like this allows investors to be uniquely positioned to record gains across multiple crypto trading strategies while protecting themselves from massive losses in any single crypto currency. More importantly, investors have complete control; they can begin or end the following whenever they want.

PLATFORM SPECIFICATIONS

REGISTRATION

All users must be registered on the platform to carry out any activities. Registration is a standard process that can be completed via email, Facebook, Google, or Twitter.

SPEED OF EXTENSION

At the initial launch, we will offer only initial_traded Models. As soon as our API becomes “bullet-proof” tested — we shall launch algorithm_trading strategies as well. We will automate digital asset trading processes, avoid trust and security issues, and make investments as transparent, simple, and secure as they should be by implementing smart contracts and technology.

USER PRIVACY

At buzzBT, we take user privacy very seriously. We understand that our users entrust us with sensitive personal and financial information, and we are committed to protecting this information in accordance with the highest industry standards. To ensure the privacy of our users, we have implemented a number of measures, including:

ENCRYPTION

All data transmitted through the buzzBT platform is encrypted using state-of-the-art encryption technologies. This helps to ensure that sensitive information is protected from unauthorized access or tampering.

ANONYMITY

We offer our users the option to remain anonymous while using the buzzBT platform. This means that they can transact and exchange value without revealing their personal identity.

COMPLIANCE

We are committed to compliance with relevant laws and regulations related to user privacy. This includes implementing privacy policies and procedures in accordance with these laws and regulations.

USER PRIVACY

We are transparent about our privacy practices and policies, and we make it easy for our users to access and understand this information.

INVESTOR OPPORTUNITIES

When someone decides they are ready to invest in digital assets, there is a stumbling block:

Crypto currency trading occurs on multiple exchanges, each of which has its own set of rules and regulations and often necessitates a lengthy verification process. At this point, the majority of potential investors have given up. Another issue is volatility, which can have a negative impact on any inexperienced private investor's overall trading result. The learning curve for investing in crypto assets is extremely steep, and experienced digital asset traders are best positioned to capitalize on emerging opportunities offered by the block chain revolution.

Investors may consider entrusting funds to a private crypto trader or a fund in order to profit in newly established markets. Due to a lack of regulations and the high possibility of fraud, such decisions can be extremely risky.

MULTIPLE CRYPTO CURRENCY SUPPORT

The ability of the buzzBT platform to support multiple cryptocurrencies is one of its key features. This means that platform users can buy, sell, and exchange a variety of cryptocurrencies, including well-known ones like Bitcoin and Ethereum, as well as lesser-known ones like Litecoin and Monero.

buzzBT feature is intended to give users flexibility and choice, as well as the ability to transact with the crypto currencies that best suit their needs and preferences. It also contributes to the buzzBT platform's ability to remain current and relevant in an ever-changing crypto currency market.

The buzzBT platform uses a robust and flexible architecture that can handle a wide range of digital assets to support multiple cryptocurrencies. It also has strong security measures in place to protect the assets and transactions of its users.

HIGH-PERFORMANCE ENGINE

The trading system has implemented hardware-accelerated and highly efficient memory-matching technology, with order-making peak values exceeding 2 million per second and order-processing peak values exceeding 1 million per second. These figures are hundreds, if not thousands, of times higher than the industry norm. As a result, when the market is booming, it can guarantee no delay or lag throughout the entire core order process.

believe our goal of becoming one of the top ten global hottest exchange platforms.

MARKET ANALYSIS

OPERATIONAL STRATEGIES

buzzBT's most enduring and fundamental competitiveness is its strong R&D team, which ensures world-class stability and service quality. Meanwhile, buzzBT's capable operation team will forge a prosperous future through long-term and large-scale online/offline promotion and operation. Active users who exchange, invest, and promote buzzBT will receive the majority of the exchange commission. Incentive policies can keep active users interested and drive the business forward. The invitation bonus plan, on the other hand, will significantly increase buzzbt subscribers and traders. We will soon ach

FINANCIAL STABILITY |

Users of buzzBT platform place a high value on the platform's financial soundness. Users, after all, want to be confident that their assets are secure and that the platform they are utilizing is stable financially.

The buzzBT team is dedicated to preserving the platform's viability financially. In order to ensure buzzBT's financial stability, we have put a number of precautions in place. BuzzBT, first and foremost, offers a robust and varied revenue stream. This includes earnings from transaction fees as well as through collaborations with other cryptocurrency-related businesses. The platform's financial stability is strongly supported by these many revenue streams.

buzzBT also has a strong balance sheet, with a sizable asset reserve to weather any market downturns or other unanticipated circumstances. This reserve is carefully watched over and managed to make sure it always has enough to support the platform. In conclusion, the buzzBT platform is positioned to withstand any market upheavals and is financially robust. The platform's financial stability is a result of its robust and diverse revenue stream, stable balance sheet, and knowledgeable financial team

SECURITY IS A PARAMOUNT |

❖ SYSTEM LEVEL SECURITY

It is built in accordance with the financial level standards to ensure all the users that the sensitive data are sorted to the bank level data encryption, the industry standard transfer protocol is applied to the data transfer users to provide the maximum security for our users, the multi-factor dynamic authentication mechanism has been introduced to sensitive operations such as transactions and withdrawals.

❖ OPERATIONAL LEVEL SECURITY:

buzzBT has designated strict production data operation and usage standards and has established special internal risk control and operation process departments. To check and use all online data, a multi-level review and approval process is required, and the core data will be desensitized to ensure maximum security for user data.

buzzBT TRADING TERMINAL

The Trading Terminal is a Natural Extension of the buzzBT infrastructure. With aggregated liquidity and a strong educated community, it becomes necessary to introduce a trading terminal suitable for both experienced and novice crypto currency traders. There is currently no fully functional platform for retail investors that offers aggregated liquidity and allows them to execute trades based on quotes from multiple exchanges. Furthermore, the market offers very little advanced trading. Each trader can use the buzzBT trading terminal

- ▶ To trade the most cryptocurrencies.
- ▶ Use a single account to access quotes from major exchanges.
- ▶ Make advantage of quick and responsive execution, tight spreads, and a large order book.
- ▶ Access to all necessary information about crypto currency, most advanced charting software, market sentiment, data & analysis similar to COT in the future.
- ▶ Earn success fees in addition to trading profits by enabling investors to copy trades via the peer-to-peer asset platform.
- ▶ Create a full-fledged trading career on a single platform.
- ▶ Produce detailed financial reports that are compliant with regulations.

TEAM

We have assembled a team with a strong financial market background that is eager to improve the world of digital currency investments. Together, we will build a magnificent platform that will allow many investors and traders to connect and benefit from everything the BuzzBT platform has to offer.

FINANCIALS

INCOME AND EXPENSE

The income mainly comes from the fees of user trade and withdrawal. We promise to keep the fee rate low. Please refer to the details

buzzBT expenses are mainly from promotions, operation, and technology R&D

TOKEN ISSUANCE DETAILS- MORE THAN 300 CRYPTO COINS ARE INCLUDED.

LEGAL CONSIDERATIONS

RISK AND DISCLAIMER

IMPORTANT NOTICE : PLEASE READ THE ENTIRETY OF THE “Legal Considerations, Risks and Disclaimer” SECTION CAREFULLY. WE RECOMMEND YOU CONSULT A LEGAL, FINANCIAL, TAX, OR OTHER PROFESSIONAL ADVISOR(S) OR EXPERTS FOR FURTHER GUIDANCE PRIOR TO PARTICIPATING IN THE **BUZZBT LIMITED** TOKEN SALE OUTLINED IN THIS WHITE PAPER.

RISKS

As with any investment or venture, the use of the buzzBT platform carries certain risks. These risks include, but are not limited to, the following:

MARKET RISKS

The value of cryptocurrencies can be volatile and may fluctuate significantly over time. This means that users of the buzzBT platform could potentially experience losses due to changes in the market value of their assets.

SECURITY RISKS

Cryptocurrencies and blockchain technology are still relatively new, and there is a risk that the buzzBT platform could be targeted by hackers or other malicious actors. This could potentially result in the loss of users' assets or information.

REGULATORY RISKS

The regulatory environment surrounding cryptocurrencies is still evolving, and it is possible that new laws or regulations could be introduced that could impact the use of the buzzBT platform.

It is important for users of the buzzBT platform to understand and consider these risks before using the platform. The buzzBT team is not responsible for any losses or damages that may result from the use of the platform.

Users of the buzzBT platform should also be aware that the buzzBT team makes no representations or warranties of any kind, express or implied, regarding the completeness, accuracy, reliability, suitability, or availability of the platform or the information, products, services, or related graphics contained on the platform for any purpose. Any reliance users place on such information is therefore strictly at their own risk.

Respectively, and 100000 Holders of BUBT Tokens; target of launching BUBT Token On
Top 1 of the top 5 Centralized Exchange Platforms. Aim to Reach 100000 Verified Users
of buzzBT Exchange Platform.

This White Paper Will Be Updated for Every Small Changes.

MARKET COMPETITION |

The crypto exchange market is extremely competitive, with numerous platforms vying for a piece of the pie. buzzBT is well aware of its competitors' competitive landscape and is working incredibly hard to differentiate itself from them.

buzzBT distinguishes itself by emphasizing security and dependability. The buzzBT platform was built with security in mind, employing snipping technologies such as secure ghettos and cryptographic equipment to safeguard user assets and data. Furthermore, the buzzBT team has a proven track record in security, with coworkers having worked on some of the world's most secure systems.

buzzBT also distinguishes itself through its user-friendly interface and intuitive design. The buzzBT platform has been designed to be simple to use, even for those unfamiliar with cryptocurrency. This emphasis on usability has assisted buzzBT in attracting a large and growing user base.

Finally, buzzBT is committed to operating in the cryptocurrency market in a responsible and ethical manner. buzzBT's team believes in the power of cryptocurrency to improve the world and is committed to building a platform that meets the needs of its users while also contributing to the greater good.
